

ELL Missing Link

Jocelyn Kabayama – Limited English Proficiency Specialist, Chester County Technical College High School

Jennifer Seal – Itinerant Learning Support Teacher, Chester County Technical College High School

Supporting English Language Learners in three key areas – the CTE classroom, community (schools, work, health), and post-graduation. In the CTE classrooms, the paraeducators, students, and instructors are supported. In the community, connections are made with resources/agencies and community programs and family/cultural events are attended. Post-graduation support includes financial aid, cultural awareness, and workplace ready skills. Bridging the gaps by cultivating a positive perspective on being bilingual and bicultural, providing resources and information to support a smooth transition after graduation results in success for all students.
